Finish Forecast 2026

In 2026, design trends are shifting toward comforting, nature-inspired palettes that reflect our collective desire for calm, connection, and sustainability.

DECO 

Experience brings vision

DECO Australia has specialised in advanced powder coat and sublimation finishes for over 20 years, witnessing the growing acceptance of new metal finishing technologies alongside the evolving landscape of colour and design.

From traditional Western Red Cedar windows to contemporary Curly Birch facades, our DecoWood® finishes have complemented a wide range of design palettes over the years.

With high-performance finishes like our Super Durable™ DecoWood® and DecoVogue® ranges, architectural designs not only benefit from exceptional colour durability and longevity, but also the confidence of sustainable finishing solutions.

As design sensibilities lean into grounded elegance and tactile warmth, DECO's premium finishes continue to evoke the authentic essence of natural materials – ensuring harmony with evolving palette trends and a seamless connection to both contemporary and timeless architectural styles.

See how our selection of timber, stone, and textured DECO finishes translate the 2026 colour forecasts into timeless, tactile design.

Trends Shaping 2026

Global Industry Outlook

Globally, 2026 is defined by themes of redirection, reconnection, and renewal. WGSN and Coloro's Colour of the Year, Transformative Teal, embodies this mood - a blend of deep blue and aquatic green symbolising adaptability, resilience, and an Earth-first mindset. Pantone's 2026 Colour of the Year, Cloud Dancer, is a lofty, serene white that evokes calm, clarity, and a fresh-start feeling.

Industry leaders such as *Colour Hive* by MIX, echo this movement through their colour directions - JOY, HOLD, DARK, and TASTE - exploring responses to the climate crisis, digital fatigue, and the pursuit of authenticity. From raw, natural finishes to glowing iridescent materials and expressive patterns, these global perspectives highlight a renewed appreciation for purposeful, emotionally driven design.

Across all forecasts, colour and finish trends converge on one idea: nature-inspired tones that nurture emotional connection and sustainable optimism.

Dulux Colour Forecast 2026

Based on year-round global research, the Dulux Colour Forecast has been a trusted reference for the Australian design industry and homeowners alike since its inception in 2019, and is now recognised as one of the leading colour forecasts worldwide.

In 2026, Dulux predicts colour will take on a deeply emotional role, offering reassurance, warmth, and calm in response to global uncertainty and digital fatigue.

The three forecast palettes - Ethereal, Elemental, and Evoke - reflect our world in this moment of change. From soft, whimsical pastels to warm golden neutrals and rich, grounding tones, these palettes introduce subtle calmness to balance busy lives.

View the full Dulux Colour Forecast 2026 at dulux.com.au

“Colour has the power to lift spirits, offer emotional reassurance and bring a sense of calm into our homes.”

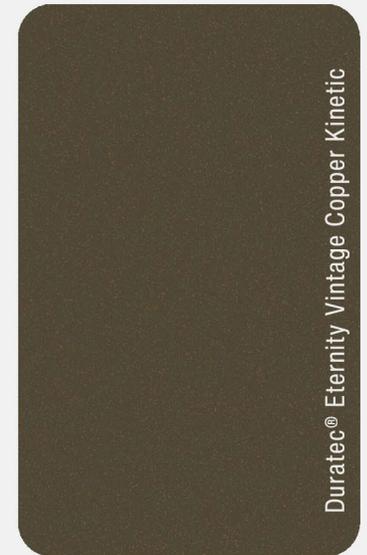

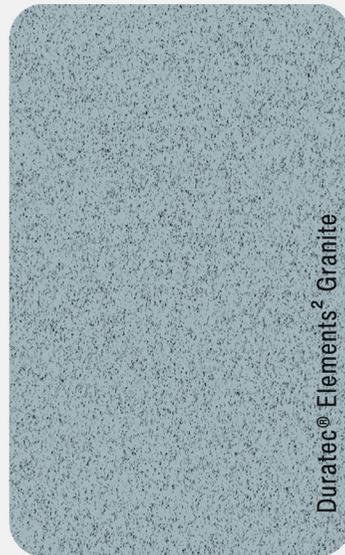

Andrea Lucena-Orr, Dulux’s Colour and Communications Manager

Elemental

The Elemental palette reflects a growing desire for slow living, drawing inspiration from brutalist design principles and the honesty of raw, enduring materials. Grounded and purposeful, this palette harnesses the natural environment, prioritising repairability, durability, and lasting utility over fleeting trends.

DECO's range of DecoVogue® concrete and rust-look finishes plays directly into this palette, complemented by DecoWood® timber finishes such as **Kwila®** and the new **Pewter Ash™**, which soften the palette and introduce natural warmth and texture.

Elemental features the distinctive, textured powdercoat finishes of Duratec® Elements² Granite and Duratec® Elements² Stone, paired with Electro™ Natural Silver Kinetic and Duratec® Eternity Vintage Copper Kinetic to deliver an elevated industrial aesthetic.

Introducing our newest finish **DecoWood® Pewter Ash**, which is a cool, weathered grey finish featuring a soft linear timber grain with subtle knots for a calm, contemporary timber aesthetic.

NEW
DecoWood® Pewter Ash™

Our Forecast *Palette*

Elemental

DecoVogue® **Charcoal Concrete** and Duratec® Eternity Vintage Copper Kinetic ground this palette with depth and texture, while DecoWood® **Wheatfield®** is used to carry natural light through the space.

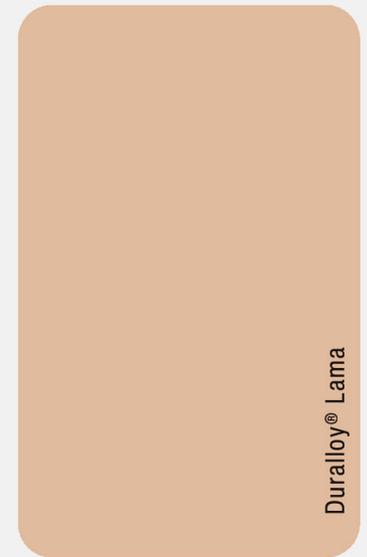

Finishes may appear different on screen and are a guide only. We recommend requesting a free colour sample to make your final selection.

Evoke

The Evoke palette is playful and emotive, capturing a sense of warm nostalgia; like new beginnings in an older home. Celebrating the resurgence of maximalism and personal expression, Evoke embraces imperfection, layering elements of past and future to create a fresh, eclectic aesthetic.

DecoWood® timber finishes introduce comforting texture and character drawn from past eras. Finishes such as **French Wash** and **Linen Shore®** provide a subtle yet striking contrast, softening the palette while enhancing its nostalgic warmth.

PPG's Industrial

Duralloy® Anotec Mid Bronze

Duralloy® Lama

DecoWood® French Wash®

DecoWood® Linen Shore®

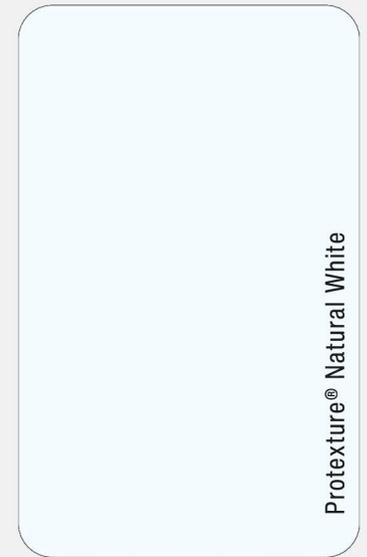

The Duralloy® Lama, Duralloy® Anotec Mid Bronze and **DecoWood® French Wash** pay homage to the retro era, while the **DecoWood® Linen Shore®** brings a timeless element that will withstand future designs and eras.

Finishes may appear different on screen and are a guide only. We recommend requesting a free colour sample to make your final selection.

Ethereal

The Ethereal palette embraces soft pastels and mid-tone hues, where gentle greens, muted mauves, and lush pinks come together to create a whimsical, playful story of modern escapism. Light-filled and expressive, this palette balances delicacy with depth, offering a calming yet imaginative aesthetic.

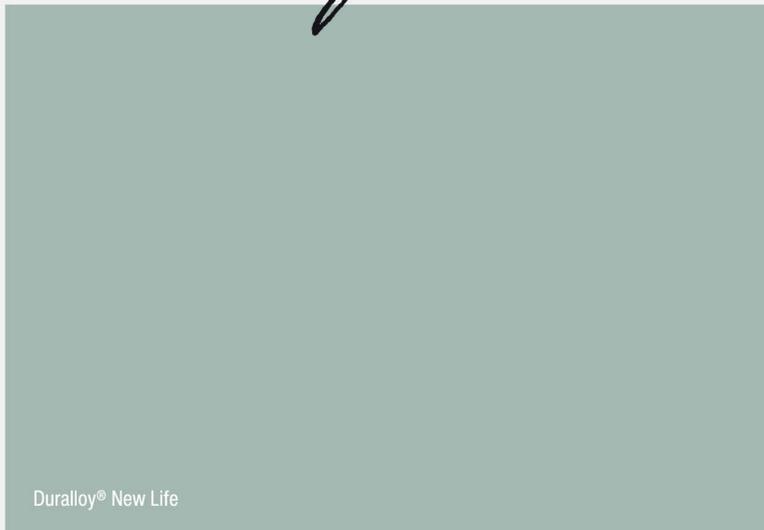

Paired with DecoWood® timber finishes like **Aspen Drift®** and **Barn Oak®**, the palette balances expressive colour with natural texture, creating a calming, contemporary aesthetic grounded in warmth and materiality.

Dulux powder coat finishes within this palette include the tactile elegance of Surreal Effects Mannex® Suede Texture and Duralloy® New Life, complemented by the understated opulence of Electro™ Aged Brass Kinetic and the cleansing warmth of Protecture® Natural White.
